SUMMARY

I am most excited by projects that involve a variety of skill sets and minds, combining different technologies to create one beautiful user experience. I love designing clean, smart, and effective work.

Over the last 12 Years, most of my projects focused on Identity and Graphic Designing, Web Designing, Mobile App Designing, Branding, Video Editing, Moton Graphic Designing, HTML, CSS, Bootsrap 5 and Email Marketing. And always with the aim to get the message to the viewer in the most efficient way.

I have never let the lack of technical skill stop me from getting the results that I want from a project. I go out and learn the necessary skill to execute it.

EXPERIENCE

2017 - Jan 2025
Infopark, Cochin, Kerala, India.

UI/UX Lead
Digiora Technologies Pvt. Ltd.

I am extremely delighted to be a part of the energetic wing of Digiora techonologies Pvt Ltd. The dynamic and creative work environment of the organisation helps the employees to increase their integrity and morale. The company encouraged alot to me to mold me as a complete professional.

2017 - 2018
Palarivatom, Kerala, India.

Senior Web Designer
Dock Communications Pvd. Ltd.

The multi- dimensional work culture at Dock Communications Pvt Ltd., gives me a great opportunity to adapt the creative and challenging techniques in programming. The team work and inter personal communication here makes me as a more result oriented person. It was really such a great opportunity for me to work such an innovative environment.

2015 - 2017
Kakkanad, Kerala, India.

Senior Web Designer
Glenspark Software Solutions.

It is an honour and pleasure for me worked in Glenspark Software Solutions. The company places me in a collaborative working environment that allows its employees to always focus to take on new exciting challenges. The company also shaped me as a responsible individual with strong integrity.

2011 - 2015
Aluva, Kerala, India.

Graphics and Web Designer
GraphicSquare Creative Solutions.

I really enjoy the opportunity to worked in Grapicsquare Creative Solutions, a company that has always been and continues to motivate each and every employee to build their career. The well supportive management and leaders who always motivate their team, openly shared information from the company about the progress. I have learnt many things, knowledge and experience-wise, from this company.
